Mexico City, Mexico

PROFESSIONAL SUMMARY

Mechatronics Engineer and XR Developer with professional experience building immersive VR and AR applications in Unity and C#. Developed interactive training and educational experiences for Meta Quest, WebGL, and social VR, combining spatial interaction, gameplay systems, user interfaces, and 3D environments.

Experience includes XR Interaction Toolkit, multiplayer experiences with Udon/UdonSharp, WebAR prototypes with 8th Wall, interactive avatars, API integrations, and real-time visual feedback. Skilled at prototyping, integrating 3D assets, debugging device-specific issues, and collaborating on immersive products.

Seeking XR Developer roles focused on VR/AR interaction, spatial computing, immersive systems, and accessible user experiences.

EDUCATION

Generation México | *Mexico City, Mexico* May 2026 - Aug 2026
Unity Developer Program

National Autonomous University of Mexico — UNAM | *Mexico City, Mexico* 2018 - 2023
Bachelor's Degree in Mechatronics Engineering

PROFESSIONAL EXPERIENCE

Banco Actinver | *Mexico City, Mexico* Jul 2024 - Mar 2026
Spatial Computing Engineer / XR Developer

- Built Unity-based VR learning experiences, transforming financial content into spatial interactions.
- Programmed XR gameplay, interactive quizzes, user interfaces, progression, and physics behaviors.
- Integrated visual feedback, audio, animations, and reusable immersive components.

Infomedia | *Mexico City, Mexico* Feb 2024 - Jul 2024
Data Analyst / Data Consultant

- Created, modified, and queried databases using SQL.
- Developed reports and queries for business areas and audit processes.
- Used Hadoop, Hive, Impala, Databricks, AWS, Google Cloud, Git, and Jenkins.

Brita Inteligencia Artificial | *Mexico City, Mexico* Aug 2023 - Jan 2024
XR Technical Designer

- Developed a real-time 3D digital human and interactive virtual assistant in Unity.
- Integrated speech input, avatar behaviors, API/server responses, and user feedback systems.
- Resolved Unity, WebGL, audio, and API issues across interactive workflows.

TECHNICAL SKILLS

Unity | C# | VR/AR | Meta Quest | OpenXR | XR Interaction Toolkit | Spatial UI | WebXR
8th Wall | ARCore | ARKit | Vuforia | Three.js | Udon/UdonSharp | VRChat | Spatial Multiplayer VR | 3D Asset Integration | Unreal Engine | API Integration | Git/GitHub

PROJECTS

Banco Actinver | *Mexico City, Mexico* Jul 2025 - Mar 2026
Spatial Computing Engineer / XR Developer

Inflation Paradox (Link)

- Developed Unity VR mechanics to teach financial topics through immersive interaction.
- Built interactive challenges, quizzes, player progression, timers, and feedback systems.
- Integrated physics, collisions, spatial UI, animations, VFX, and audio.

8th Wall WebAR | *Mexico City, Mexico* 2025
WebAR Developer

Shared WebAR Prototypes

- Developed browser-based AR prototypes using 8th Wall World Effects and Shared AR.
- Implemented placement of GLB models with double-tap interactions.
- Integrated camera-anchored subtitles and interactive visual elements.

PAPIME UNAM | *Mexico City, Mexico* Nov 2023 - Jun 2024
Unity XR Developer / Udon Programmer

VRChat Laboratory Simulator (Link)

- Created multiplayer laboratory interactions in Unity with Udon and UdonSharp.
- Implemented synchronized objects, animations, and experiment sequences for up to 40 users.
- Supported use across PC, mobile devices, and VR headsets.

Brita Inteligencia Artificial | *Mexico City, Mexico* Aug 2023 - Jan 2024
XR Technical Designer

AI-Powered Digital Human

- Integrated a 3D avatar into a conversational experience in Unity.
- Connected microphone input, remote services, audiovisual feedback, and interactions.
- Implemented greeting, consent, conversation, and user feedback flows.

Meta Horizon Worlds Hackathon | *Team VR Demons* Oct 2025
XR Developer / Team Contributor

Meta Horizon Worlds Hackathon

- Won first place as part of the VR Demons development team.
- Collaborated on an immersive prototype for Meta Horizon Worlds.
- Contributed to a team-based XR project under hackathon constraints.
